VOL. XXIII, NO. 220 GAINESVILLE, FLORIDA, WEDNESDAY, OCTOBER 24, 1906 TEN CENTS A W

NEGRO WAS LYNCHED AS GUARDS SLEPT

Officers Awoke to Find Prisoner Hanging to a Tree.

NEGRO HAD VERY BAD RECORD

He Had Committed Assault on White Woman and Had Been Chased by Posse Bent on Lynching Him For Two Days.

Mobile, Ala., Oct. 23.—Robert Clarke, alias Dan Dove, a negro from Kansas City, was hanged from a telegraph pole near the Lucedale depot of the Mobile, Jackson and Kansas City railroad by 300 masked and unknown men Sunday morning, after being mysteriously spirited from the jail of Jackson county, Mississippi.

The negro was arrested late Friday night by a posse who followed him to within 2 miles of Mobile from Lucedale, where he had attempted to assault two white women and had stolen a horse and shotgun.

The negro offered resistance and was shot in the shoulder.

Deputy Sheriff H. W. Hinton of Lucedale took the prisoner from the posse and managed to evade a Mississippi mob bent on lynching him. Hinton placed the negro in the Lucedale jail and, with another deputy, guarded him until Sunday morning, when both fell asleep.

When they awakened the negro was missing and was subsequently found strung up to a telegraph pole a short distance from the jail.

A man who reached Lucedale reports that he ran into a masked and heavily armed mob near the town late on Saturday night, and that they forced him to retrace his steps. There is absolutely no clew to the identity of any member of the mob.

The coroner's jury returned a verdict that "the deceased came to his death at the end of an inch rope."

Negro Had a Bad Record.

Kansas City, Oct. 23.—Robert Clarke, the negro lynched near Mobile, had a bad police record here. For ten years up to the time he left Kansas City, a year ago, Clarke was the prize bully of Cottage Lane, a negro settlement here, and had served innumerable sentences in the county jail for participating in cutting affrays.

Mob Searches For Negro Assailant.

Montgomery, Ala., Oct. 23.—A mob of 50 to 100 went to No. 4 state prison, 9 miles out, Sunday, looking for Herman Thompson, the negro who assaulted little Callie Cain Friday. The main part of the crowd remained out of sight while two men were allowed to examine the cells and prison. They left satisfied that the negro was not there. The whereabouts of the negro are as yet unknown.

Spirited Away to Save From Lynching.

Gadsden, Ala., Oct. 23.—John Moseley, the negro arrested charged with the murder of Engineer Joe Cobb at the steel plant, was hurried to Anniston. Threats of lynching were heard here all day. Cobb was very popular here and in Alabama City, where he lived. The engineer was brained with a hammer.

Iowa Mob Was Formed.

Sioux City, Ia., Oct. 23.—At Mapleton, 60 miles south of here, a mob was formed for the purpose of lynching Claude Fisher, a farm hand, aged 21 years, who is said to have confessed to a criminal assault on Miss Minnie Baker, a Mapleton school teacher. Officers escaped with the prisoner to Adaho Grove, where he was lodged in jail.

Postal Clerk Was Injured.

Birmingham, Ala., Oct. 23.—Seaboard Air Line passenger train No. 32, which left Birmingham at 6:35 Sunday morning, was derailed 1 mile west of Cedartown, Ga. The baggage car, mail car and second-class coach turned over, and Postal Clerk J. E. Seguest of Birmingham was injured, though not dangerously. No passengers were hurt. The cause of the accident has not been determined.

BODY OF CLUBMAN FOUND.

Missing For Eleven Days, Corpse Is Found In Deserted House.

Norfolk, Va., Oct. 23.—After having been missing for 11 days, E. W. James, a member of clubs of Norfolk, and said to be worth $500,000, was found dead in a room of the old James mansion here Sunday. Death occurred over a week ago, and was due to asphyxiation. The police are investigating his death. Mr. James was a member of the Virginia club here; the Westmoreland, in Richmond, and of a prominent Baltimore organization. He lived alternately at these three places. No one has slept in the old mansion, at 62 Fourteenth street, the heart of the old aristocratic section of Norfolk, for about ten years. A room on the main floor had been used by James for a decade as an office while he was in Norfolk keeping his rental accounts. His habits were very queer, according to Joe Wright, a negro, who has lived in a house in the rear of the mansion for 15 years, and who said Mr. James always locked himself in whenever he visited the mansion.

Thursday, Oct. 11, Mr. James was last seen alive by Wright's wife. He came to the house that morning. The negro made an investigation and discovered, through a window, the dead body of his employer in a sitting position in a chair at his desk. The police found a gas jet in the room wide open. James was a bachelor, with relatives in Washington, Baltimore, Richmond and Norfolk, but his nearest kin, two sisters, died about ten years ago.

Whether the death was accidental or not has not yet been determined by the verdict of the coroner's jury nor by the investigation of the police.

Lunatics Jammed Together.

Havana, Oct. 23.—Governer Magoon visited the National Insane asylum and discovered a deplorable state of affairs there. One thousand six hundred and sixty persons of both sexes were crowded into a filthy and dilapidated building with a capacity for 400 persons. They were sleeping on broken cots, relics of the last American occupation. Congress made an appropriation to enlarge the asylum, but the money was never expended. The conditions today are very little better than under Spanish control. Governor Magoon will take steps to erect additional buildings and remedy abuses.

Mexican Governor Accused.

Mexico City, Oct. 23.—A profound sensation has been caused by the announcement that voluminous documents have been presented to congress formally accusing Rafael Isabel, governor of the state of Sonora, of being responsible for the violation of the territorial rights. The accusations refers to the entrance upon Mexican soil of Arizona rangers, alleged to have been in the governor's convoy at the time of the Cananea riots. The exact terms of the accusing documents are not as yet known, and their being made public is being awaited with much impatience by the people here.

Young Farmer Badly Beaten.

Pelham, Ga., Oct. 23.—In the town of Mapleton, 6 miles east of here, on the Flint River and Northeastern railroad, J. A. S. Adams, a prominent young farmer of this county, was severely beaten. A negro named John Jordan and his wife were having a fight, and Mr. Adams entered the house to separate them. Both of the negroes turned upon the white man and dealt him several severe blows on the head with pieces of wood. The woman escaped, but the negro man was placed under arrest and is in jail.

Foul Play Probable.

Chicago, Oct. 23.—Several days ago the body of Mrs. Margaret Leslie, an actress, was found dead in a room in the Palace hotel. It was considered at the time to be a case of suicide, and the coroner at the conclusion of the inquest so reported. Lately several features of the case have cast doubt on the suicide theory and the police have been investigating to see if the woman was murdered. Monday the coroner's physician, after an exhaustive examination, declared that the woman was probably strangled to death.

COAT OF SNOW GIVEN TO WEST

Severe Weather Prevails From Wyoming to New Mexico.

SNOW FALLS IN BLINDING SHEET

Telegraph and Telephone Service Cut Off and Railroad Traffic Is Greatly Delayed—Wind Does Great Damage at Salt Lake.

Denver, Colo., Oct. 23.—A general storm of snow prevailed along the eastern slope of the Rocky mountains from Wyoming to New Mexico Sunday.

Snow has fallen in Colorado almost incessantly for the last 24 hours, and still continues Sunday night.

Suburban electric lines have operated with difficulty, and railroads have experienced delay in running trains. As yet no serious results are reported in this section.

Worst Blizzard Since 1882.

Albuquedque, N. M., Oct. 23.—The worst blizzard since the great storm of 1882 is general throughout New Mexico. A high wind is bringing a general fall of snow and sleet throughout the Grand valley, and reports indicate that the losses to sheep growers will be very heavy.

The storm began here about 7 o'clock Saturday morning with a high wind, which rapidly increased in velocity until by 9 o'clock the gale had reached the proportions of a tornado.

The wind carried dense clouds of sand and dust which developed into rain, and with the rapidly falling temperature, into sleet and snow. Sunday night the snow was falling in blinding sheets, and meager reports indicate that it is much more severe in the country. Telegraphic and telephone service is almost completely shut off and railroad traffic is delayed. Some minor damage has been done in Albuquerque, Las Vegas, Socorro and smaller towns south of Albuquerque, while the sheep industry suffered in northern New Mexico.

Utah Is Being Swept.

Salt Lake, Oct. 23.—For the last 24 hours this city and vicinity has been swept by a wind storm of unparalleled severity. In addition to three serious accidents to persons, property over a wide area has been devastated, a fire fanned by the wind has obliterated the new Plant of the Utah Packing company, causing a loss of about $250,000. During the full period of the storm trains have arrived irregularly. For much of the time the street car service has been at a standstill, and the electric lighting plants are out of commission.

Ruined buildings, fallen chimneys, broken windows, loosened signs and toppled trees throughout this and adjoining towns are the most common souvenirs of the storm, and form, in the aggregate, an immense source of loss. The wind attained a maximum velocity of 52 miles an hour at 9 o'clock Saturday night, and 4 and 6 o'clock Sunday morning. For hours afterwards it maintained an average speed of 38.

A number of persons here sustained injuries from falling trees and short-circuited wires.

Six Inches of Snow at Duluth.

Duluth, Minn., Oct. 23.—A blanket of snow, 6 inches or more, fell Sunday night in northeastern Minnesota, covering the Vermillion and Mesaba ranges and extending as far west as Fosston.

Storm Passing Eastward.

Ellis, Kan., Oct. 23.—Colorado's snow storm is passing east and prevailed Monday in western Kansas. Passengers reaching here on belated eastbound trains report a heavy snow storm in progress between Ellis and Denver.

Bullet Shied at Negro's Head.

Columbus, Ga., Oct. 23.—Henry Ward, a negro, was shot during a fight at a First avenue saloon. He seemed almost bulletproof, for the ball struck his forehead and glanced, inflicting only a slight wound.

MacFAYDEN COMMITTED SUICIDE

Was Head of Bankers Who Suspended Business Saturday.

London, Oct. 23.—P. MacFayden, head of MacFayden & Co., bankers, whose suspension was announced Saturday, committed suicide within an hour after posting the notice of the failure on the door of the bank by throwing himself before a train in a tunnel about half a mile away from his place of business.

Mr. MacFayden appears to have gone direct from his bank to a station of the City and South London railway, to have entered the tunnel unobserved and deliberately lain down in front of an approaching train.

The engineer reported having run over an obstruction in the tunnel and a search revealed a shockingly mutilated body, which was identified as that of Mr. MacFayden.

It is rumored that the failure of P. MacFayden & Co., the London house of Arbuthnot & Co., bankers, of Madras, was connected with the cotton market, but as Mr. MacFayden was the sole partner in Europe, it is difficult to obtain information on the subject.

"Newsboys' Friend" Dead.

Chicago, Oct. 23.—Isaac Woolf, head of a large clothing company, was found dead in his bed Sunday at his residence. He had died of a contraction of the windpipe, which caused strangulation. He was 54 years old. For the last 25 years Mr. Woolf had been known as the "newsboys' friend." Every year he gave a newsboys' dinner. From unpretentious beginnings, there were 100 ragged and hungry little guests served at the first, the feast has grown to one of increasing importance, numerically considered. Last year 10,000 newsboys and other hungry urchins from the streets and poorest tenement districts, attended the Thanksgiving dinner. Every one considered Mr. Woolf as his personal friend, and the clothing merchant encouraged this feeling. Many of them had been to previous dinners given by the man, who in his boyhood, had been a newsboy himself. There were 550 turkeys and many other good things. The expense was $5,000.

Hearing Is Convened.

Knoxville, Tenn., Oct. 23.—Judge Judson S. Clements of Georgia and James S. Harlan of Illinois, members of the interstate commerce commission, formally convened a hearing for the commission in this city Monday morning. It is to ascertain the relationship of the Southern railway to the coal mining industry in the Tennessee-Kentucky field. There are also present Martin S. Decker, assistant secretary of the commission; James S. Murphy, representative of the commission, who made preliminary inquiries in this region in advance of Monday's meeting; C. C. McChord, state railroad commissioner of Kentucky, and W. O. Davis of Versailles, Ky. The two last named are attorneys for the commission.

Broward Thanks Roosevelt.

Washington, Oct. 23.—The president Monday received the following telegram from Governor Broward of Florida, in response to a message of sympathy for those who had suffered by the recent storm and an offer of federal aid if necessary: "Leesburg, Fla., Oct. 21.—I express to you the sincere thanks of the people of Florida for your expression of sympathy and sincerely thank you for your offer of national aid. We will advise you further after investigating matters."

Given Twenty Months.

London, Oct. 23.—The man styling himself Gerald Morgan, and who claimed to be a member of the Harvard Rowing club and nephew of J. P. Morgan, was Monday sentenced at the Old Bailey to 20 months at hard labor on the charge of having obtained a small sum of money by fraud from Dr. Dickey of Greenwich.

Failure of Exchange Operator.

New York, Oct. 23.—The failure of J. W. Henning, an operator on the New York Stock Exchange, was announced on the floor of the exchange Monday. Henning was a large trader on the exchange. It is said he suffered losses in Chicago, Milwaukee and St. Paul stock in April last.

PROMINENT MASONS MEET HERE TODAY

Convention of the Eleventh District to be Held Here.

MANY WILL BE PRESENT

District Comprises Lodges from Several Counties, With A. M. Cushman at the Head—Meeting Will Last Two Days, and All Degrees Conferred.

The Masonic District Convention, Eleventh District, which is composed of several of the lodges of Alachua, Bradford, Levy and other counties, will convene in this city, at the Masonic hall, tonight, and will be in session for two days.

The session promises to be one of the most successful held in this district in some time, and indications are that a number of delegates from each lodge, as well as many visiting Masons, will be present. Past Grand Masters Marcus Endel and James Carnell, and Grand Master Charles W. Johnson, will probably be present, and altogether the prospects for a good meeting are assured.

There will be conferred work in all degrees, and inasmuch as the team of the local lodge is in fine condition, knowing their various parts well, the visitors are anticipating something good and instructive in this direction.

A. M. Cushman, district deputy grand master of the Eleventh District, is one of the oldest, most widely known and most thoroughly posted members of the order in the State. With him, as assistants, he will have Worshipful Master W. B. Higdon and Secretary Robert McClellan of Gainesville Lodge No. 41, both of whom are well posted in the work.

A list of the delegates and visitors will be published as soon as complete.

Masons, Attention!

A convention, composed of the Lodges of the Eleventh District will begin here Wednesday night, October 24th, and will be in session for two days.

Past Grand Masters Marcus Endel and James Carnell have promised to be in attendance, and Grand Master Charles W. Johnson will probably be with us. There will be work in all the degrees.

A. M. CUSHMAN,
D. D. G. M., Eleventh District.

ALLEGED GAMBLERS HEAVILY FINED

Eight of Them Were Assessed $25 and Costs, the Ninth $50.

CASES ARE TO BE APPEALED

Marshal Pinkoson Arrested the Men, Who Were Required to Give Bond for Their Appearance—Other Cases of Various Nature Disposed Of.

There was an interesting matinee in the municipal court Tuesday afternoon, and when the curtain went down there had been some lively and interesting scenes, during which eight men, Lem Hutchinson, Marion Rowe, Will Rowe, Chas. Hill, William White, Floyd Johnson, Henry Williams and Theodore Williams, were fined $25 and costs each, and Tom McFadden $50 and costs, upon a charge of gambling, having been apprehended and arrested by Marshal Chas. Pinkoson a few days ago while in an alleged game of "skin."

Marshal Pinkoson had received a letter of complaint from some person in East Gainesville, stating that the men were daily and nightly engaged in drinking and gambling, and added that if the officer would "keep his weather eye open" he would catch the "gang." Accordingly Officer Pinkoson complied with the suggestion, and was rewarded by the arrest of nine, who employed a lawyer and gave bond for their appearance on Tuesday.

Attorney Evans Haile represents the defendants, and it is said that the case will be appealed.

There was in addition to these cases a large docket. Tom Harris, for being drunk, was fined $5 and costs. Hamm (de Hamm what am sho 'nuff) ten plunkets and the costs for trimmings for an assault on a companion; Ed Frazier, fighting, $10 and costs; Dennis Williams, Obie Ross and Tenny Ross, all for fighting, $5 and costs each.

All defendants paid out with the exception of Frazier, who went to jail for thirty days.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I "had 'em"—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder (about the same length) of a tapeworm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

UNITED STATES COURT OF CLAIMS

The Publishers of Webster's International Dictionary allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.

The ceremonies at the grave were conducted by the Masonic fraternity.

The floral decorations were plentiful and very beautiful, several designs having been furnished by loving friends.

The large concourse of friends present at the church attested the popularity of Mr. Taylor here. Having been born and reared here, a young man with an excellent character, he was highly regarded by everyone who knew him.

To the bereaved wife, mother, brothers and sister, as well as all surviving relatives, The Sun, with other friends, extends sincere sympathy.

TO PAVE EAST MAIN.

Material Now on Ground, and Work Will Begin in Few Days.

The material—or a large portion of it, is on the ground for the paving of East Main street N., and the work will begin in a few days, as soon as the work of paving on West Liberty street has been completed.

The material to be used is flint rock. It is of the hardest and most lasting quality, and will make an elegant and substantial roadway.

In accordance with the ordinance providing same, a number of the most prominent throughfares of the city will be paved with flint, which will add greatly not only to the convenience of the public, but to the general appearance of the city.

Louisville, Ga., Oct. 22.—The Louisville and Wadley railroad had a bad wreck Friday. Dr. E. Z. F. Golden and Captain W. J. Ball were badly injured. The coach turned over, caused by a broken rail.

A BRAKE ON SUCCESS.

The Habit of Making Excuses Will Retard Any Man's Career.

Good excuses have kept back many a man from realizing a prosperous career. Once you get the excuse making habit formed you might as well have a ball and chain attached to your neck so far as your prospects for rising to the top are concerned.

There are two kinds of excuses which keep a clerk in the business world occupying a clerk's position when he is capable (has it in him) to be something better if he only would. The first class of excuses are the ones he makes to himself. These are often as enervating, subtle and death dealing as the nasty cigarette.

A clerk sees a piece of work which he knows ought to be done today. He knows that the best interests of the business require that this work should not be put off until tomorrow. But he has not yet reached a point where he realizes that his employer's interests are identical with his own, and perhaps he was out late last night and feels a lack of ambition today. So he excuses himself from doing the work on the ground that "the boss" didn't tell him to do it today. After soothing his conscience with this specious mental dope he puts in his spare time reading about the way Slobett knocked out Casey in twenty-one rounds. Several days later when the neglected work comes under the eye of "the boss" our clerk is asked why he did not do it, and he then repeats his stereotyped excuse that he wasn't "told" to do it. For such a one the gateway to success is always barred.

This brings us to the second kind of excuse, that made to one's employer. Of the two this latter kind of excuse is the less injurious to the clerk's chance of advancement. When he excuses himself from doing obviously important work he instills into his own mind a subtle mental poison, a don't-care-a-hang essence that breeds lack of backbone, lack of concentration, lack of continuity and application. He weakens and incapacitates himself far more when he excuses himself to himself because he will then often allow his mind to dwell on excuses so weak that he would never dream of giving them verbal utterance in the presence of his employer.

And when he has once set the mental habit of excusing himself he goes on and on binding the fetters which will forever hold him back from any rise. It is now only a short step to finding good excuses for not doing what he has been told to do. Then a little further along on the same line it will be strange indeed if he does not land himself on the boot toe that elevates the incompetent and deposits them outside in the cold world.

Shun excuses.—Spare Moments.

POINTED PARAGRAPHS.

It must be tough to hate a man everybody else likes.

"I am sorry" does about as little good as anything in this world.

If you want to keep your friends you must occasionally leave them alone.

You can shave your whiskers off quicker than you can get them back.

Nearly every man is henpecked, but a good many manage to disguise the fact.

People talk about the importance of "taking it easy." Some people take it too easy.

The one thing that stands by you, keeps you interested in life and is always the same is your regular work.

When a woman bluffs she seldom has anything better than a bobtail flush, but it takes a mighty brave man to "call" her.—Atchison Globe.

All a Trick.

The other day a woman and a boy came into a shop to buy a hat. After a time the woman was fitted to one. Looking in the glass, she said to the youngster:

"How do I look in this hat?"

"Like a thief," promptly responded the boy.

The woman angrily darted toward him, but the boy fled from the shop. The shopkeeper laughed and thought it all very funny until their long absence made her realize that she had been robbed. Then she stopped laughing.—London Telegraph.

Silveira's Health Broken.

New York, Oct. 23.—A Herald cable dispatch from Caracas, recounting the arrival here on Oct. 10, of Manuel Silveira, the Cuban banker, charged with absconding $1,000,000 belonging to J. M. Ceballos & Co., of New York, whose alleged action caused the assignment of the firm, says Silveira rented a house on a fashionable street and was received splendidly. His friends were unconscious of the alleged defalcation. According to the dispatch, Silveira comes to Venezuela temporarily, to restore his health, which has been broken since his automobile accident, and declares left his firm insolvent, with $1,500,000 assets to cover $700,000 owed to Ceballos & Co. He affects surprise at the news of the failure and charges against himself.

Will Postpone Trip.

Washington, Oct. 23.—Baron Speck Von Sternberg, the German ambassador, has decided to postpone his proposed trip to Texas until next autumn. He originally planned to make an extended trip through the southwest this fall, but finds that he will not have time this year to make as long a visit as he desires. Baron Sternberg has been invited to visit various Texas cities. Many changes have been made in the German consular offices in Texas and the ambassador is anxious to have an opportunity to discover what part the newly established German line of steamers to the Texas is playing in the development of the southwest.

Registered Fourteen Times.

New York, Oct. 23.—A remarkable attempt at election fraud was developed Sunday when James Haggerty, a 19-year-old boy, was arraigned charged with having registered illegally 14 times. He was held in $5,000 bail. Haggerty in each instance gave the surname Haggerty, but used a variation of first names. It is alleged that he confessed. He mentioned no party accomplice, it is said, and gave the impression that he acted on his own responsibility, looking for a market.

TO BREAK WITH VATICAN.

Concordat of 1851 Denounced by Minister of Foreign Affairs.

Madrid, Oct. 23.—A note drawn up by Minister of Foreign Affairs Gullon, denouncing the concordat of 1851 and inviting the vatican to open negotiations for the conclusion of a new concordat more in keeping with present ideas will be presented to the vatican. The government is absolutely determined that the associations bill be passed and its provisions carried out. In case the bill is thrown out of the senate, which is not probable, the government will ask King Alfonso to dissolve parliament and it believes it will have the complete support of the country in such a step.

The bill of associations was approved in the cabinet meeting held last Friday, and an immense crowd of people awaited the appearance of the ministers after the meeting.

Public excitement is running high, and such enthusiasm has not been brought out by any question since the Spanish-American war.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." Anxiety For Steamer.

New York, Oct. 23.—A London dispatch to the Times says there is considerable anxiety there concerning the British steamer Arabistan, bound for Buenos Ayres for New York with £600,000 in gold. She left Buenos Ayres on Sept. 23, and it is reckoned she must have been in the region disturbed by the recent West Indian hurricane. Five pounds (sterling) was paid Saturday for re-insurance on the gold.

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating, and frequently become nauseated. I had pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is strictly confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

RAPIDLY APPROACHING.

Date of Opening of State Fair Less Than Three Weeks Off.

Wednesday, November 14th—less than three weeks off—will mark the opening of the great Florida State Fair at Tampa, which should be attended by every man, woman and child in Florida. Floridians and others who have attended the Georgia, Alabama and North Carolina State fairs this year declare that the Florida State Fair of last year was infinitely superior in every way to any of these, a fact of which every Floridian should feel proud. The coming State Fair will be much more complete and magnificent in every department, and the Floridian failing to attend and acquaint himself with the wonderful resources of Florida will be recreant in his duty to himself, family and State. The railroads will give low rates from all sections, and the best accommodations will be furnished at low prices at hotels, boarding houses, private houses and residences of Tampa. A large committee of citizens, with a paid force of young men, will look after all visitors on their arrival.

The amusement features will be the grandest ever seen in the South, including the horse races and the great White City Hippodrome. The Fair Association first appropriated $10,000 to secure this great attraction for two weeks. The amount was found to be inadequate, however, and was doubled. The array of attractions to be seen on the Range this year will be of a much higher order than that of last year. The horse racing will be of a very high-class order, and exciting finishes may be looked for. A total of 516 horses have already been entered, and $10,000 have been offered on purses. Out of hundreds of high-class shows offered, President Brown has been able to select only the best. The majority of these shows have never been seen at Southern fairs. Music by the best band in the country, dazzling performances of all kinds in the open air and in tents, and other features have been secured for the edification of the thousands who will attend. Don't fail to attend the Fair, or you will regret it. Remember the dates—November 14 to 29.

PANAMA COMPLICATIONS.

Questions relating to the construction and equipment of the Panama Canal are worrying the Administration no little. In order to escape responsibility for the employment of Chinese labor, and also to devise a big job for some favored corporation which can be depended on to help finance the next presidential campaign, it is now proposed to let the entire work by contract. The contractor would be allowed to employ what labor he pleased, at whatever wages and for whatever hours he pleased, and also to buy his supplies in foreign markets and take them to Panama free of duty. The gain on the labor and supplies would thus amount to many millions; and the contractor would get all the profit. The scheme is worthy of the jobbers who have it in charge.

The Republicans of Massachusetts are greatly disturbed and annoyed by the signs of the times. At their recent State convention Ex-Gov. John L. Bates, speaking as permanent chairman of the convention, expressed his grief and apprehension thus: "Trust-investigations, indictments, theories, schemes, recriminations, and muck-rakes are having their day." No doubt, the indictments are about the only thing the Republican leaders really fear; but the other proceedings are making them sadly uncomfortable. The way of the wicked is, indeed, very hard in these times. May it never be easier!

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

The owner of Tom Watson's Magazine declares that he owes Tom nothing for his services as editor, because he devoted all of his editorial space to such insignificant topics as the Georgia gubernatorial campaign and the editor of The Macon Telegraph. This fails to put Georgia and the editor of The Telegraph in good humor, however.

In spite of the declaration of Congressman Littlefield that President Gompers kept him from being defeated, there has been no call for Gompers' services in the many other districts from Republican Congressmen who see defeat staring them in the face.

Attorney General Moody says that he will stay in the Cabinet until the Government wins the Standard Oil cases. It looks as though Mr. Moody were postponing that resignation for a long time.

No play is well staged unless it ends beautifully. When the curtain falls the last act in life's drama ought to linger with the world like the afterglow of a sun long since gone down.

AN EXPERT OBSERVER ON THE MANUFACTURE OF CHEWING TOBACCO.

An expert observer on the manufacture of chewing tobacco claims that it is the planter's process of flue-curing, producing and developing the stimulating flavor and bouquet of the tobacco grown on certain lands in the Piedmont tobacco belt, which popularizes the chewing tobacco habit.

R. J. Reynolds Tobacco Company's factories are located in the famous Piedmont flue-cured tobacco belt, the finest chewing tobacco section known to the world. This kind of tobacco requires less sweetening to please chewers than any other tobacco grown. The Company's location enables it to secure the choicest selections of this flue-cured leaf, which are manufactured under the personal supervision of men who have made the selecting and blending of this particular kind of tobacco for chewing purposes their life study.

The Reynolds' plants for the manufacture of Schnapps and other of its brands of chewing tobacco, are operated largely by machinery, in the most hygienic manner, and reveal a system of cleanliness that would do credit to a model household. The old adage of "too many cooks" holds good in tobacco manufacturing. The Company has reduced the handling of tobacco to a minimum. Automatic conveyors take the leaf to the brushing machines (specially invented for the Reynolds Company), where, by an ingenious process, every leaf is brushed and cleaned. After this brushing and cleaning, the tobacco drops into another conveyor and is carried to the sweetening machines, where the sweetening is applied automatically, thereby insuring a uniformity and cleanliness impossible by the ordinary method; and thus, with the idea of cleanliness always paramount, the tobacco is conveyed automatically from one machine to another, throughout nearly the entire process of manufacture.

The pleasant and appetizing aroma of the tobacco leaf used, and the cleanly methods of manufacturing have caused visitors to the Company's factories to experience their first desire to chew tobacco.

The Story of a Hymn.

The following is the story of how the famous missionary hymn, "From Greenland's Icy Mountains," came to be written, as related by Heber's biographer, George Smith: "It was Whitsunday in the year 1819. His father-in-law, the dean of St. Asaph, was vicar of Wrexham and arranged to preach the missionary sermon on the day appointed. On the Saturday, when preparing for the services, the dean asked his son-in-law to write something for them to sing in the morning. The almost immediate result was the composition, as if by an inspiration, of what is still the greatest hymn in the chief missionary language of the race. Retiring to a corner of the room, Heber at once wrote down the first three verses, beginning 'From Greenland's icy mountains,' when the dean called out, 'What have you written?' Heber read over the lines, when the dean exclaimed, 'There, there; that will do very well.' 'No,' replied the poet; 'the sense is not complete,' and added the fourth verse. He would have gone on with a fifth, but the dean was inexorable to his request, 'Let me add another—oh, let me add another!' And the hymn was sung next morning in Wrexham church."

Hidden Jewels.

The quantity of turquoises that lie hidden in jewelry, combined with other stones and with gold or by themselves, is so extensive in the cities of eastern Europe that it is believed that more of them are bought by gem merchants in this way than are at present secured from the principal mines. This is not strange, however, for not only turquoises, but other precious stones, are known to exist in remarkably large collections in Constantinople as well as in cities in Turkestan, Persia and communities of southeastern Europe. They are hidden away in ginger jars, rugs, old boxes and other receptacles of the household, where the owner believes there is little prospect of search being made for them. Gem collectors who have searched for stones in this part of the world say that no one can tell how many and what valuable specimens are thus hidden away, only to be brought to light when the owner is absolutely forced to part with them through dire necessity. Undoubtedly many a gem brought from the famous mines of India, Egypt and Persia has been thus secreted.—People's Magazine.

INVESTIGATE ALLEGED FRAUDS.

This Request Is Made to Grand Jury of Madison County, Alabama.

Huntsville, Ala., Oct. 23.—The Madison county Democratic executive committee held a meeting and passed resolutions asking the next grand jury to make a full investigation of the alleged attempts at fraud in the August Democratic primary. The committee will present to the grand jury a list of the challenged voters with a view of having their records inspected.

The committee also adopted resolutions endorsing the platform of the state Democratic convention, excepting that plank declaring for local option so far as it applies to Madison county, their reason for this being that the people of this county have voted in favor of establishing a dispensary. The principle of local option as to the remainder of the state is endorsed.

Magazine For the Blind.

New York, Oct. 23.—Announcement was made Monday that Mrs. William Ziegler, widow of the patron of arctic explorers, has decided to publish a monthly magazine for the blind. It will be printed in raised characters, which the afflicted ones will be able to read by touch, and will be distributed without cost to the sightless ones in the United States, so far as they can be found. Mrs. Ziegler's enterprise will be the first periodical to enter its peculiar field. Walter G. Holmes, who has been long interested in work for the blind, and through whom Mrs. Ziegler had her attention called to the need for printing literature for their need, will put the magazine under way.

Gives Up Self to the Sheriff.

Jonesboro, Ga., Oct. 23.—After eluding the officers of the law for a week, Will B. Lee, the young man who shot Will C. A preliminary hearing will probably be held during the coming week.

Marines to Leave Havana.

AN ODD BIRD SPECIES.

She Does the Courting and He Most of the Nursery Work.

Wilson's phalarope is very common in nearly all parts of the northwestern prairies wherever there are grassy pools or sloughs. It is a quiet, beautiful little bird, with no immodest outcries, feeding prettily along the moist margins of the sloughs and not distressing itself over our presence. From nearly every standpoint this phalarope, like all other species of its class, is an anomaly among the birds. Apparently a land bird, it has partially webbed or scalloped feet and is a good and graceful swimmer. The female is the larger and handsomer of the pair. She does the courting and he most of the subsequent incubation and nursery work. He is duly meek and obedient, as becomes the husband of an amazon, for so worthy and strenuous a young female as she will not tolerate a buck hanging around idle when there is plenty of useful work to be done. For her part, to lay eggs so big that the chicks are clothed and able to run at birth is all that should reasonably be expected of her. Their marital relations are otherwise scandalous from our point of view. Two or three idle, vainglorious females are often seen devoting themselves to one little male at the height of the nesting season, and no one seems to be sure whether or not he is the husband of any one or all of them. Anyhow, they are all head over ears in love with him.—Herbert K. Job in Outing Magazine.

INDIAN REMEDIES.

Peculiar Medical Methods Used In the Far East.

Great virtues are ascribed to the claws and horns of certain animals. Tigers' claws are in great demand with the common people. One or two claws may be worn near the loins, but should one possess a larger number the fortunate owner makes a garland of them and wears them around his neck. Deer's horn ground into the paste is an excellent balm for pain and swellings. A more curious use is found for the same substance; it is sometimes made into a powder which is supposed to aid the growth of stunted women. The joints taken from the long and slender tail of the black scorpion are supposed to keep illness at arm's distance when children wear them on their waist thread.

A red or swollen eye is cured by having it touched with the bolt or chain of a door. A remedy which I have seen applied with considerable effect in more than one epileptic fit is to place a bunch of keys in the palm of the sufferer. I have heard it said that the fit passes away as readily if the keys are placed on the head. A rather quaint remedy in the case of a sprained neck is to use an iron measure for a pillow.

Sore throat is cured by spitting on redhot iron, quite the simplest and least expensive cure known to the native doctor. Peacock's flesh and pig's ghee are the best medicines for acute rheumatism.—Madras Mail.

No Hurry.

The minister was shocked when the young woman declined an introduction to some of his parishioners. "Why, my dear young woman, did you ever think that perhaps you will have to mingle with these good people when you get to heaven?"

"Well," she exclaimed, "that will be soon enough."—Life.

Another Way to Put It.

"If that's so," interrupted old Boxley, "I guess that young wife of mine merely loves me for the enemies I've made."—Philadelphia Ledger.

LEAD GLASS.

The Processes by Which It Is Cut and Polished.

Designs to be followed by the cutter are first drawn on the blank or plain glass with whiting and water and then traced with red lead and turpentine. The first cutting is classed as "roughing" in the glass factory, when the glass is cut or ground out wherever there is a red line. The first cutting or roughing is with a soft steel disk on which there flows a small stream of water and very fine sand. The disk is in a lathe, and the glass is held by the hands of the cutter, and on his ability to firmly hold the glass and true eyesight to see that lines are followed depends the quality of the article.

Cut glass in blank or plain form is known as lead glass or best metal glass, crushing or collapsing like sand instead of shattering or breaking like window or lime glass.

From the roughing or first cutting the article being cut goes to the smoothing process, the same lines or cutting being followed on two stone disks, one of Graigleigh or gas stone imported from England and the other of blue stone, the finest cutting being done with the latter. The polishing is done with wooden disks, from which the glass goes to an acid bath and thence back to the polisher, who uses a chemical compound like putty, and finally to a felt disk or wheel, then the brush wheel and finally the wash with water

ALACHUA COUNTY....

Alachua county is 808,400 acres in area, has 248 miles railroad, 900 miles wagon road, 56 postoffices, 123 public schools, 27 phosphate plants, 20 saw mills, $75,000 court house, four newspapers, and produces corn, cotton, rice, sugar, oats, rye, potatoes, pineapples, oranges, peaches, pears, plums, pecans, and all kinds of vegetables

Gainesville, the County Seat....

Has fourteen churches, two public schools, the University of Florida, private schools, three newspapers, United States land office, the best water, fire alarm system, electric and gas lights, two ice factories, machine shops, three wood factories, cotton gin, two moss factories, three railroads, two fertilizer manufacturing companies, one flour manufactory, one rectifying turpentine plant, two banks, and well stocked stores embracing everything in the commercial line.

The Common School.

In higher education England is certainly the equal if not the superior of this country, but the benefits of that education are necessarily limited, and limited, by the way, to those who have no pressing need for it. In the matter of common schools, however, we have done for our people what no country in Europe has yet attempted. The results have naturally been an industrial and commercial forwardness that has made us sometimes the admiration and sometimes the envy of the English.—St. Louis Republic.

Lest We

Forget—baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

CHEAPEST STORE ON EARTH

HOISERY TALK.

The season has now come when it is necessary for the whole family to wear Shoes, and of course you can't wear Shoes without Stockings, and usually the Stocking bill is more than the Shoe bill. This will not be the case if you buy a standard brand of goods.

We have just received a large shipment of the celebrated BLACK CAT HOISERY for Men, Women and Children, and this brand is too well known to need much talking about. The price commences at 10c and runs up The Boys' Hose at 15 and 25c wear almost like leather. See the line and try a pair next time you buy.

The Radcliffe Shoe for Ladies'—both button and lace—at $2 50 per pair are the best that money can buy.

We are now showing many new things in Fall and Winter Goods. It will pay you handsomely to do your trading with us, no matter what you need.
